

## CALUMET PEOPLE SPEND AN ENORMOUS SUM FOR LUXURY

Forty Thousand Dollars Represents the Cost of Ice Cream for the Season of 1920 to the Citizens of Calumet—Big Increase is Noted Over Last Year's Records Here.

A conservative estimate places the total amount of ice cream consumed in Calumet during the past summer at 20,000 gallons, and many who are familiar with the business which has been done, believe that it exceeds rather than falls short of this enormous quantity. One dealer alone who has kept an accurate record of the amount of ice cream manufactured for his wholesale and retail trade, claims to have marketed no less than 19,500 gallons of this frigid delicacy, and although it is almost impossible to secure an accurate estimate of the amounts manufactured by other dealers and private individuals, and that which is shipped to Calumet from outside sources, there seems to be little doubt that the total amount is at least 20,000 gallons.

Dealers assert that the business has been exceptionally good this year, the large number of holidays and celebrations causing an increase in the consumption of the creamy luxury. The numerous conventions in this city have contributed not a little to the demand for ice cream this year.

Although it seems almost impossible to believe, the citizens of Calumet, young and old, have spent about \$40,000 in cash to procure something cool in the warm days of the summer. The price of ice cream by the gallon to dealers has ranged between 85 cents and \$1.25, but retailed by the wish, it brings about twice that amount. During 1919 it is estimated that about 24,000 gallons of ice cream were consumed in Calumet, calling for an expenditure of about \$32,000.

The sources for ice cream and soda water fountain drinks has about passed in Calumet, and although a number of the dealers have prepared to supply the former for private demand throughout the winter months, the majority of the small retailers have dismantled their fountains and ice cream parlors for the season.

### BIJOU THEATER PROGRAM.

The program for the Bijou theater of Calumet is an exceptionally strong one, consisting of four big acts. "Children and Children," the rubes from Kankakee; Rose Layton, a dainty comedienne; The Houghtons, European hand balancers; and Florence, the comedy entertainer. A choice collection of moving pictures has also been secured for the entertainment this week.

## HINTS FOR THE HOME

(By Elinor Allyn.)

Neatness of Dress—The child that is neatly and carefully dressed has a feeling of self-respect that goes far towards good scholarship. It is unjust to both child and teacher to fail to attend to this important point. It is not necessary, nor even advisable, that a child should be expensively dressed. Old clothes are no disgrace, but unclean clothes, dirty finger nails, soiled face and neck and uncombed hair are not only a disgrace, but a detriment to the child's work. The foul air that is found in many school rooms is not always due to poor ventilation. The odor of unclean bodies is the most annoying the teacher has to contend with and is at the same time the hardest problem in the hygienic question she has to solve.

The main thing, after a menu has been decided upon, is to get the child down to the table with time enough to eat in peace. Better a half hour less sleep than that the breakfast should be hurried, and the tense feeling of haste be allowed to make the most of the discomfort. A day well started means much to every member of the household and to none is it more important than to the hungry, growing child, burdened with the weight of study in school and out, that we all feel is necessary. If books and studies are arranged in the night before, and the child is awakened in ample time the whole household will feel better than to go through the hurry-scurry that is the regular routine in many homes between the hours of 8 and 9.

A. F. Eber is moving his stock in trade from his Oak street stand to the store owned by the Italian hat company on Seventh street.

## Spend Less Than You Earn

It's an excellent advice, especially for those just starting on the road of life.

Then there's another point every bit as important. It is this—Put what isn't spent where it will not only be safe, but where it will earn something.

It's YOUR business to see that less is spent than is earned.

It is ours to see that the surplus is well looked after.

Here are highest interest rates joined to unquestioned safety.

**The First National Bank OF CALUMET**

## ROWETT-HARRINGTON MATCH WILL BE HOTLY CONTESTED

Contest Will Determine the Cornish Wrestling Championship of the World—Rowett is Expected in Calumet Thursday—Both Men are in Fine Condition for Fight.

Jack Rowett, the Bessmer game warden, is expected in Calumet on Thursday, to complete his training for the Harrington-Rowett match at the Calumet theater on Saturday. Rowett is reported as being in fine condition and it is expected that he will make a fine showing against the Bute man. His work in the woods keeps him in good form almost all of the time and because of this fact he did not need to devote as much time to preparing for the match as most men would require.

Harrington is completing his training at Dunn's hall and if he loses this match, it will not be because of lack of condition. His practice consists of road work, rope skipping and bag punching and frequent brushes with the local experts of the Cornish wrestling game. Last week in a single hour's practice, Harrington threw three of the best known local men.

Indications point to the fact that a

JACK ROWETT.

large amount of money will be wagered on the outcome of this championship match. However and from country people are already sending money to Calumet, to be posted on their own and friends of Harrington will find plenty of bets to cover. The big Bute wrestler has won back many of his old friends in this vicinity and will have plenty of backing for the match.

According to the terms of agreement the match will start at 9:00 o'clock on Saturday evening, and will continue until either of the men win, if the winner is not determined at midnight, the fray will continue on Monday evening, or until one is thrown. This understanding assures the public that the men will be forced to wrestle from start to finish and that no stalling may be expected.

The seat sale opens on Thursday morning at Forster's news stands and ringside seats may be secured from Dunn Bros. or Hoffman and Walls hatters.

### TUITION FEE IS RAISED.

The secretary of the Calumet school board has notified the secretaries of other boards of education in this district, who are sending pupils to the high school, that hereafter the charges for tuition will be raised from \$40 per year to \$60 per annum. The price has been advanced because it has been found that \$40 per year does not cover the expense.

### TEACHING IN VANCOUVER, B. C.

Miss Clara E. Fisher, eldest daughter of Justice Fisher, is now located in Vancouver, B. C., where she is teaching music. Miss Fisher, when she left Calumet early this summer for Seattle, Wash., to visit the exposition, had no intention of leaving the west. She visited Vancouver, however, and found the field to her liking and decided to stay there, for a time at least.

### PLAYED TO CAPACITY HOUSE.

Dr. Eber and the members of his band left here this morning for Hannock, where they will play a week's engagement at the Kerroge theater. Last night's concert at the Calumet theater was rendered to a capacity house, many standing throughout the entertainment. The concert was one of the best ever given in Calumet.

Mail Carrier Thomas is ill with typhoid fever.

## ANTARCTIC HONORS FOR GREAT BRITAIN.

Capt. Robert Falcon Scott, Leader of the New Antarctic Expedition, Which Intends to Nail the Union Jack to the South Pole.

London, Oct. 5.—Following close upon the success of Lieut. Shackleton in the Antarctic and Dr. Cook and Commander Peary in the Arctic a new claimant for polar honors appears in the field.

Captain R. F. Scott, R. N., has already begun to organize a new expedition to the Antarctic, with the object of reaching the south pole. The expedition is to start next July, and will have two bases, one in McMurdo Sound, and the other in King Edward VII land. Captain Scott intends to use Manchuian ponies, like those of Lieut. Shackleton, and dogs of either Oystak, Samoyed or Eskimo breed. He will also rely considerably on motor-sledges, and a new feature of the expedition will be an installation of wireless telegraphy. The sum required is £40,000, and Captain Scott hopes that the colonies, especially those in Australasia, will contribute, and also be represented among the members of the party. Captain Scott, it will be remembered, commanded the national Antarctic expedition of 1901-04, which he described in his famous book, "The Voyage of the Discovery."

## LATEST PICTURE OF J. PIERPONT MORGAN, JR., WHO, BACKED BY THE MORGAN MILLIONS IS RAPIDLY BECOMING AN INTERNATIONAL FIGURE IN FINANCE.

New York, Oct. 4.—John Pierpont Morgan, Jr., is rapidly becoming a national figure in finance. His father, who is gradually dropping his active charge of the various enterprises under his control, turning them over to his son, Morgan, Jr., is just in the prime of life, being 42 years old. He was a graduate of Harvard university with the class of 1889. Since graduation he has been a member of the firm of J. P. Morgan & Company, New York; J. S. Morgan & Company of London and a director in many corporations in which his father is interested.

### FOOLISH WORRY.

"Captain, is there no way in which the ship may be saved?" "None at all, sir; we are going to the bottom, but I should not worry about the ship, sir, if I were you—she is fully insured. You'd better find a life belt."—Houston Post.

### BABYLON'S LOAN SHARKS.

There were no old maids in Babylon. Every girl was supplied with a man. If she did not get one herself the state provided one for her. Women had large privileges, too, in those days. It is on record that they could hold property independently of their husbands and could exercise the rights of citizenship without let or hindrance. Provisions were cheap; chickens could be bought for about 25 cents each, and a whole sheep did not cost more than from \$1.25 to \$1.50. Egypt & Sons lent money at 20 percent.—Shoppell's.

## LAURIUM

### BAPTISTS ARE FORTUNATE IN SECURING DR. TUPPER

The Rev. Dr. Kerr Bruce Tupper has been secured to deliver an address at the Calumet Baptist church on Tuesday, Oct. 12, one week from this evening, and it is expected that the lecture will be one of the best ever offered to the Calumet public. Dr. Tupper is lecturing under the auspices of the National Chautauque Bureau and arrangements for the entertainment in this city have been made by the members of the Baptist church.

Dr. Tupper descended from a family exceptionally prominent in educational, civic and religious circles, and highly educated he is a scholar and orator of the first rank. At the age of seventeen he received a medal in college for oratory, and wherever he has preached and lectured in the United States and abroad he has always had a large and enthusiastic hearing. It is expected that the subject of his lecture in Calumet will be "An Evening of Laughter; or the Humorous Side of a Preacher's Life."

The lecturer has traveled widely in Europe, Egypt and Palestine. He is a fluent orator, speaking invariably extemporaneously, and with an ease and finish that charms his hearers. His lectures are characterized by grasp of thought, beauty of diction and wealth of historical and literary illustration. The members of the Baptist church of this city may consider themselves fortunate in being able to offer the public a lecture number of as much merit, and it is expected that the attendance will be large.

### DESTROY TUNGSTEN LIGHTS.

By this evening it is expected that thirty-two of the thirty-six new Tungsten lights which are being installed in the village of Laurium will be ready for use. The employees of the Electric Light company have been working hard upon these lights and expect to complete the installation this week, so that every street corner will be lighted. During the past few weeks a number of these lights have been destroyed wantonly by boys and young men in the village. The police officers will exert every effort to apprehend the guilty parties, and if they are located they will be promptly punished. The law provides a heavy penalty for this offense, destruction of property, and the police hope to have these guilty in the toils in a short time.

### BIRTHS AND DEATHS HERE.

The returns for the village of Laurium of births and deaths for the month of September have been completed by Village Clerk Martin Prisk. There are a total of twenty-three births, and, by a strange coincidence—the first in the history of the village—the total number of deaths is also twenty-three. Of the deaths two were from tuberculosis, one from diphtheria, one from cancer of the liver, four from gastro enteritis, three deaths from cholera infantum, and two violent deaths.

### LAURIUM BREVITIES.

Justice Atwell of Laurium has been appointed a deputy clerk by County Clerk Richardson for the purpose of issuing deer licenses. The licenses likely will be ready for issuance the latter part of this week. The season opens on Nov. 10.

Edward Kittl, wife and child, son of Henry Kittl, has arrived from Menasha, Minn., and will make his future home in Calumet. Mr. Kittl is an old Calumet boy, having spent the greater part of his life in this section.

Otto Schotta, Morgan Williams, Ike Buell and Mark Train all of Laurium, have returned from a couple of days spent in the woods near the Central

## Birthstones

We have Birthstones for all months—also Lake Superior Green Stones—and with ring mountings of all sizes which we constantly keep in stock, we can at very short notice, make up a birth month ring for any month.

## You Won't Have "Cold Feet" If You Buy Our Coal

This is both literally and parigorically true. Good Coal goes a long way toward making good conditions in the home, while bad Coal—but what's the use—Buy our Coal and Wood.

## TED SULLIVAN IS HERE; SAYS DETROIT WILL WIN

"Detroit will win the 1920 baseball championship series," said Ted Sullivan the well known baseball authority to a News man yesterday afternoon as he was boarding a street car for Portage Lake.

"What makes you think so?" was the question hurled at Mr. Sullivan, and the reply was characteristic of him. "Oh, I just feel that they will that's all." Mr. Sullivan reiterated his first statement while standing on the step of the car. He added further: "You know Detroit seemed to have struck a hoodoo when they met Chicago in the last two championship series. I believe that hoodoo has been lifted now, and the championship will not go east."

Mr. Sullivan intends leaving at once for Pittsburgh and will witness the American National series of games that will open on October 5. He will follow the teams to Detroit and intends taking in all the games.

A prediction that Detroit will win the championship from a man like Ted Sullivan means much. There is no better authority on the game. He has sized up the relative strength of the teams and is in a position to make a statement as to the probable winners. At that, Mr. Sullivan is not a Detroit fan.

Representative W. R. Oates, Johnson Vivian and son, Knight Vivian, have gone to Bete de Gris, where they will spend a few days.

Charles Thompson, R. J. MacVeigh, and C. C. Sloane of Laurium, spent yesterday in Keweenaw county.

There will be a regular meeting of the Laurium village council this evening. The lighting and water questions are to be brought forward. Other matters will also occupy the attention of the village fathers.

Rev. C. H. Rutledge of Ishpeming, a prominent worker in the cause of the Anti-Saloon league, has returned home after spending a couple of days in Laurium. He preached there Sunday, in the morning at the First Baptist church, and in the evening at the Laurium M. E. church.

### JAPAN, LAND OF COLORS.

During the season which we made our journey through Japan, says a writer in the Montreal Standard, we found one field filled with sprouting barley, light green in color; another field—perhaps the next—with vetch, a lavender colored, cloverlike fodder.

A neighboring field was covered with a dark green grass, from the seed of which a lamp oil is manufactured; another with the pale yellow flowers of the mustard, and scattered here and there fields filled with what looked like a variety of lily—some white, some red, some yellow, but all equally brilliant.

### A CRITERION.

A physician at a recent meeting of the College of Physicians in Philadelphia told a story illustrating the witty comprehension of a patient of Irish nativity. The physician declared that one of his patients, an Irishman, could not understand why, if one of his arms refused to perform its usual functions, the other should remain normal.

"It is the balancing power of nature," explained the physician. "If a man is blind in one eye, nature generally provides additional strength for the remaining eye. When deafness is discovered in one ear, the hearing of the other ear becomes unusually acute."

"Now that you mention it, O'believe 'tis so," said the patient. "When a man has a short leg, the other leg is generally longer."—Judge.

### IT MIGHT BE WORSE.

Restless Roger—It always makes me and, old pal, to think that this earth is two-thirds water.

Sandy Pike—Oh, cheer up! Suppose the rest of it was soap instead of land.—Ally Sloper's.

### LITERAL.

"Did you take your shoes to that place with the sign, 'Shoes Repaired While You Wait'?"

"Yes. They repaired six while I waited, and told me to call in three days for mine."—Judge's Library.
